Invitation

The art of questioning defines the practice of philosophy from the Greeks to us. Through questions, symptoms and discomforts take on the shape or physiognomy of problems. The question itself thus guides a path of analysis and interpretation of problems, which are questioned from a contemporary scenario that turns on a plural tradition it belongs to, not to worship ashes but to preserve a flame.

Therefore, we invite undergraduate and graduate students, who are preparing their undergraduate, master's or doctoral projects, as well as undergraduate, graduate and postdoctoral fellowships, to submit their current questions to the thought of Nicholas of Cusa, to its sources

and its projections on Renaissance philosophy, Modernity and the contemporary world. Thus, our aim is to continue strengthening a plural international Network of young researchers.

Proposals will be received until **August 31, 2025**, at **jornadascusanas2025@gmail.com**.

They must include: name and surname, institutional affiliation, title (in the form of a question) and a brief abstract of up to 150 words.

Each presenter will have 30 minutes to deliver their presentation, followed by a discussion period to discuss it.
